Please forgive me
I don't want to make you cry
Please forgive me
Ohh, I'm just your jealous guy

Ohh, it's five o'clock, we're sitting in my car
Ohh, just you and me and a lonely star
Ohh, I swear you, ohh, I will love you, baby
Ohh, I need you, more and more

Ohh, I miss you so
(I miss you so)
I'm the greatest fool
To let you go
(To let you go)

Ohh, we started in heaven
I'm waiting just for you
I thought we stay together
Just we two

Please forgive me
You are strong, when I am weak
Please forgive me
You're my heart, if I can't speak

Secret love, with no name, I feel you everyday
Loneliness, just found me, why you walk away?
Ohh, I swear you, I will love you, baby
Ohh, I need you, more and more

Ohh, I miss you so
(I miss you so)
I'm the greatest fool
To let you go
(To let you go)

Ohh, we started in heaven
I'm waiting just for you
I thought we stay together
Just we two

Ohh, I miss you so
(I miss you so)
The only thing I need is you, I know
(I need you so)

My heart is always open
I'll never smile again
If I can't be your lover
I will be your friend

Ohh, I miss you
