How to conquer the world in three easy steps,

Phase 1: it's how it began

They got your consent right from the start, to get this
global government to come to a part.

Kill those, who oppose and see through the lies.

Bunker up with politics and foreign disguise.

Brainwash the masses through media control

Tear down religion, now we're deep in your soul.

How to conquer the world in three easy steps,

Phase 2: I'm talking to you;

Destroy education to remove any threat,

Engage all the workers in unplayable debt,

Create your opponent in a neighboring land,

Protect your own people with a?,

Run both sides in a global war,

Cut them to the teeth so you can settle the score.

Phase 3: It's the only way to be;

Peace breaks out. Then you hit them again,

Remember they are cattle and we're better than them,

Create kinds of disease without any cure,

Roll them back just because we keep all the cure,

Time is at hand to remove the disguise,

Conqueror of the world, the ultimate prize.
