Blood in Torrents Wrist Sheds Life  
Like Skin from a Mask of Agony  
Meat Flayed Open Beyond Stitches  
Plasma Soaks into the Sheets  
On Death Bed once with turned to Crimson  
I Lie in Bleeding Victory  
Auto Destruct Liberation  
Cut from Pin and Misery  
Death Runs Red  
Fuck Life Fuck you all Fuck Myself  
Its time to Die  
Razors Kiss deep and dark  
Eyes turned upwards towards the sky

Oblivion's Tongue licks my Cock  
Extract running red as Lust  
Wound agape like mouth of death  
Ready to become one with the Dust
