A child is born from incestuous lust
a hideous mutant is Spawned
the cranium tapered the sunken eyes glare-fuckin'
glare
a Monoloid cretin deformed
the thing quickly grows at an Abnormal rate
it's mother will be first to die
It playfully Kills as it grunts and it drools
and gouges out her yellow Eyes

it's father her father screams and attaches
his far-spaced short black teeth exposed
a hideous snap as Son breaks father's neck
and then giggles and picks his ass
