I've Got Worms Living in My Skin
Squeeze them out watch them crawl back in
I hear Fleas jumping in my Bed
The Teeth are falling out of my Head
All I own I Took Apart
I never finish what I Start

Junkie Whore Fuck Tommorrow
Ten Bucks More She Will Swallow
Manic Menstrual Crankslut Bitch
Zits are bigger than her Tits
Breathe Stinks of her Rotting Stomach
Triple X Star on her Anal Fist Fuck

I Look Out the Window I See Faces Looking In
Can I Believe I am seeing things can not be
Time melts what's real who's inside my mind
Without sleep dream awake open eyes are blind

Fetus Formed just half a brain
Little bitty Baby born insane
Pneumonia in it's tiny lungs
The pain of life has just begun
Dreams of what life could of been
But Mom was hooked on Methamphetamine
