Too tough  
We won't break  
Enough  
Cause when you make

Dark shadows  
The young pros  
They blow and come back ten fold

We don't need ropes to climb the walls you build  
Ideas and passion break the brinks with you  
Man up

Machines  
Without any rust  
Machines  
Turn us to dust

When you make a mistake  
The scarecrow breaks up its stake

We don't need ropes to climb the walls anymore  
My mind is stronger than it was before  
Man up

When you make  
Dark shadows  
The young pros  
They blow and come back ten fold

We don't need ropes to climb the walls anymore  
My mind is stronger than it was before  
Man up

Man up  
Man up  
So man up  
Yeah man up  
Man up
