When you say you want me close  
I wonder how far we go  
I've never been so sure before  
You make me loose it all  
Every time you hold me near  
It's like i'm flying above the atmosphere  
I've never been so sure before  
You make me lose it, you make me lose it all  
I've always known what i've wanted  
And sure how to get it  
Never know the blush (oh no)  
But now it feels like i'm slippin  
Can't keep it together  
Adrenalin rush (yeah, yeah)  
I think you don't even know  
How much you amaze me  
You took me by storm (took my by storm)  
When you say you want me close (me close)  
I wonder how far we go  
I've never been so sure before  
You make me lose it all (make me lose it)  
Every time you hold me near (me near)  
It's like i'm flying above the atmosphere  
I've never been so sure before  
You make me lose it, you make me lose it all  
And even when you're not with me  
You know how to reach me  
Invisible touch (invisible touch, ah)  
I never thought it would happen  
You make me come down with  
A hardcore crush (crush)  
I think you don't even know  
How much you amaze me  
You took me by storm (took my by storm)  
When you say you want me close (me close)  
I wonder how far we go  
I've never been so sure before  
You make me lose it all (make me lose it)  
Every time you hold me near (me near)  
It's like i'm flying with the atmosphere  
I've never been so sure before

You make me lose it, you make me lose it all  
(all, you make me lose it all, ouhh, ouhh  
Ouhh, ouhh)  
The very first time that we met (ah)  
That is something that i wont forget (no)  
Cause i remember all the words you said  
Cause you blew me away baby, baby (X2)  
(took me by storm)  
When you say you want me close (me close)  
I wonder how far we go (i wonder how far we go)  
I've never been so sure before  
You make me loose it all (all, make me lose it)  
Every time you hold me near (me near)  
It's like i'm flying above the atmosphere  
I've never been so sure before  
You make me lose it, you make me lose it all (X2
