Yes
Ooooooh
Real life
Oouuh
Real life
Ooooooh
Who can tell you what is real
I just know what I feel
In a world of virtuality
A girl needs a little sure reality
You make everything I do
A hundred times more true
I know that you really care for me
No matter what happens you'll be there for me
Give me that sweet sensation
Cause baby yeah
A real life
With real love
A real life
Let's love and be loved loved
A real life
With real love
A real life
Don't wanna have to fake it
Real life
What you gonna do with it
Yes
Real life
Luck is knocking on my door
Sometimes I feel so torn
But you know who I really am
Sometimes I pretend but I know you understand
You make everything I do
A hundred times more true
I know that you really care for me
No matter what happens you'll be there for me
Give me that sweet sensation
Cause baby yeah
A real life
With real love
A real life

Let's love and be loved loved
A real life
With real love
A real life
Don't wanna have to fake it
Takes real love to make it
Takes real love to make it
Real life
What you gonna do with it
Yeah
When it's all bright lights
And limousines
A girl can loose sight uh
Of what it means
But don't lose your soul
To find your dreams
Don't give up control
To the mind of the machine
When they're buyin and sellin
Gotta make it your deal
Don't let time or love be
Things you gotta steal
Gotta make it real uh
Check gotta make it real
Yeah
Takes real love to make it
Whatever happens you'll be there for me
Real life
A real life
With real love
A real life
Let's love and be loved loved
A real life
With real love
A real life
Don't wanna have to fake it
Takes real love to make it
Takes real love to make it
Real life
