I get the petrol don't forget to buy a couple of sweets  
Sometimes I like to treat myself if only once a week  
Open the door, get in the car, sit in the driver's seat  
Peer into the rearview mirror and I'm staring back at  
me  
When I say me I don't mean me as in my own reflection  
Hardly slept so I suspect I'm staring at some weird  
projection  
My brain has made to tell me alcohol abuse is wrong  
Whereupon, I turn around and realise somethings  
going on:  
Trust me son, this ain't a con, you have to trust your  
eyeballs  
Know those eyes are fine because they're mine so  
don't be stifled  
You're slightly balder now and yes your pubes are  
turnin grey  
But you've travelled back in time cause there's  
important shit to say

Don't do that (nope)  
They'll try to dupe ya  
Don't do this (nah)  
They'll try to shoot ya  
Don't do her (grim!)  
She didn't suit ya  
Today I met myself and I told me bout my future

So I'm sat in the front and sat in the back, as you do  
havin a chat  
Asking bout the change in rap and where the musics at  
I'm careful not to tell myself entirely everything  
I've come here just to warn me as to what the future  
brings:  
Oi, Listen, El, surely you can see that you're me  
I'm you, look at the lips, you really can't ignore me  
I know that in that bag there's ginger beer and curly-  
wurlys  
It's kinda hurly burly but you must believe my story  
I know you tasted glory, was all hunky dory,  
Now you're standing on the borderline, today's the day

your sure to find,  
You don't know where to draw the line, this is the start  
of your decline  
That's why I came back exactly 15 years before your  
sordid crime

Don't do that (nope)  
They'll try to dupe ya  
Don't do this (nah)  
They'll try to shoot ya  
Don't do her (grim!)  
She didn't suit ya  
Today I met myself and I told me bout my future

Freakin out, I been sneakin bout  
Feelin edgy bout the fact that I've seeked me out  
I'm freakin out, I been sneakin bout  
And I've sat inside my car and started speakin bout  
What's yet to come

It seems most of what the future has to hold for me is  
decent  
But recently my future self was caught having a  
threesome  
One of the girls was underage with fake identification  
The other one was legal but her father's occupation  
Was head of a group of hoodlums from just south of  
the Thames  
The entire episode was captured from a hidden lens  
They found some substances inside the glove box of  
my car  
So I'm front page of the sun, the mirror and the daily  
star  
I'm either goin down for twenty or thugs are out to get  
me  
My walls are bout to crumble which is why I went and  
sent me  
Back in time, prevent the crime, avoid Jane and Amy  
It seems my future self's a prick but really who can  
blame me

Don't do that (nope)  
They'll try to dupe ya  
Don't do this (nah)  
They'll try to shoot ya  
Don't do her (grim!)  
She didn't suit ya  
Today I met myself and I told me bout my future
