We can dance
We can boogie all night
No more working 9 to 5
I hit the shower getting ready for tonight
We're goin' out
The club is jumpin' up and down
Up and down
I was ready around 10
My girl Sarah picked me up in her new benz
It's going down
We're cruising down into town
Into town
Can't hold it back no more
I'm headin' for the floor
'Cause all I wanna do is get up and get down
We can dance
We can boogie all night
We can dance
Hit the floor and make it right
We can dance dance dance
All through the night
We can dance
Nothing's stoppin' us alright
We can dance
The club was packed and felt so good
Fellas everywhere just doin' what they should
They sure look nice
As they're groovin' in from side to side
Side to side
Started move across the floor
Somebody pulled me back and then he said hello
