When you say you want me close
I wonder how far we'd go
I've never been so sure before
You make me lose it all
Everytime you hold me near
Feels like I'm flying above the atmosphere
I've never been so sure before
You make me lose it
You make me lose it all

I've always known what I wanted
Been sure how to get it
Never known to blush (oh no)
But now it feels like I'm slipping
Can't keep it together
Adrenalin rush (yeah, yeah)

I think you don't even know
How much you amaze me
You took me by storm
(Took me by storm)

When you say you want me close (me close)
I wonder how far we'd go
I've never been so sure before
You make me lose it all (make me lose it)
Everytime you hold me near (me near)
Feels like I'm flying above the atmosphere
I've never been so sure before
You make me lose it
You make me lose it all

And even when you're not with me
You know how to reach me
Invisible touch (invisible touch)
I never thought it would happen
You make me come down with
A hardcore crush (crush)

I think you don't even know
How much you amaze me

You took me by storm
(Took me by storm)

When you say you want me close (me close)
I wonder how far we'd go
I've never been so sure before
You make me lose it all (make me lose it)
Everytime you hold me near (me near)
Feels like I'm flying above the atmosphere
I've never been so sure before
You make me lose it
You make me lose it all

Ouhh, ouhh
Ouhh, ouhh

The very first time that we met (ah)
That is something that I won't forget (no)
Cause I remember all the words you said
Cause you blew me away baby (baby)

The very first time that we met (ah)
That is something that I won't forget (no)
Cause I remember all the words you said
Cause you blew me away baby (baby)

Took me by storm

When you say you want me close (me close)
I wonder how far we'd go (I wonder how far we'd go)
I've never been so sure before
You make me lose it all (make me lose it)
Everytime you hold me near (me near)
Feels like I'm flying above the atmosphere (oouh, oouh)
I've never been so sure before
You make me lose it
You make me lose it...

When you say you want me close (me close)
I wonder how far we'd go (I wonder how far we'd go)
I've never been so sure before
You make me lose it all (make me lose it)
Everytime you hold me near (me near)
Feels like I'm flying above the atmosphere (oouh, oouh)
I've never been so sure before
You make me lose it
You make me lose it all
