"Beyond The Last Thrust"

Visit "[Beyond The Last Thrust](#)" on MotoLyrics.com

Socking in the most a bounding dream
I can find a way out
But something suggest how
Wise you...
And listen to my reason
Grow those memories count that clear it up

What am I doing here
This is how my story ends
Bring me outside
There's no other shadow's dreaming for light

Why so restless
This is so feels right
Came with pain they say
Move it the fail one I can't remember
When I'm on straight
Tell me nothing forever forever
In this world

What am I doing here
This is how my story ends
Bring me outside
There's no other shadow's dreaming for light
What am I suppose to say
There's just sorrow and hopelessness
Moving tensions this is spells by the oldest of dark
minds

Slow and relax
This is not a dream, it's not a dream
This is not the end
I just can't remember
And I wish anything is for... face

So be sickly...
There's no one for you, no one for me
No running on road
We only needlike this

There's no road for you, there's no road from me

Or runnin on road
When you want we roll tight like this

What am I doing here
This is how my story ends
Bring me outside
There's no other shadow's dreaming for light
What am I suppose to say
There's just sorrow and hopelessness
Moving tension this is spells by the oldest of dark
minds

What am I doing here
This is how my story ends
Bring me outside
There's no other shadow's dreaming for light
Screaming for light, praying for light
Only tension this is spell by the oldest of dark minds
Pray for me, pray for me
