We saw the fear in the enemy's eyes,
We feel the confusion in other minds

[Bridge 1]

Still we don't turn away, fighting for death and glory
In the lands of the kingdom of the raven,
Still we don't turn away, now we will tell a story
We are the soldiers of heaven

We are the men, we are dying for gold
They are the unholy, the sacrifice their soul

[Bridge 2]

A long day will come, the day you set me free,
A long day will come, in a land across the sea,

[Pre-Refrain]

This is the time for immortality,
This is the place for eternity,
Oh voices

[Refrain]

Brave and faithfull in war and in peace,
Guardians for all this times,
With armour and sword and never on our knees,
Keepers of the the sacred lines.

All your life you where serving willingly,
Fighting the darkness for eternity,

[Bridge 1]

... heaven

[Middlepart]

Dr ruhm wird cho, u d ehr blibt nid scto,
Mir wandere I nes land, fasch ringsume Strand.
The glory will come, (we) will never be gone
Travelling in your land, for keeping your hands.
Travelling through your land to keep our hands
