Metal artillery attack the deranged God

Demented prisoners  
Drive thru the night  
Demented prisoners  
Eat rotting flesh

Existence with no souls

Gutless and demented  
Forever chained and captive  
Doomed from beginnings  
To learn their tombs are waiting

Symbolic rituals  
Are battled by prisoners  
The burial of confessions  
Await the priests of Damian

Demented prisoners  
Drive thru the night  
Demented prisoners  
Eat rotting flesh

Existence with no souls

Gutless and demented  
Forever chained and captive  
Doomed from beginnings  
To learn their tombs are waiting

Bloodless crimes  
Erupt in danger  
Heavy artillery  
Attack the deranged God

Demented prisoners  
Drive thru the night  
Demented prisoners  
Eat rotting flesh

Existence with no souls

Cathedral of undertakers  
Reveal the door of mutations  
The church of damnation  
Will praise the king of beasts

Symbolic rituals  
Are battled by prisoners  
The burial of confessions  
Await the priests of Damian

Demented prisoners  
Drive thru the night  
Demented prisoners  
Eat rotting flesh

Existence with no souls

Gutless and demented  
Forever chained and captive  
Doomed from beginnings  
To learn their tombs are waiting
