If his lips look delicious
And you feel ambitious
Give him the number of your phone

And if you get his call
The most important thing of all

Is to get him (get him)
Get him (get him) get him now
(Get him) get him (get him)
Yeah, get him (get him)
Get him (get him) get him
(Get him) get him alone

If his eyes look exciting
And his arms feel inviting
And you want that boy for your own

Honey, listen, listen to me
And he love you perpetually

If you get him (get him)
Get him (get him) get him now
(Get him) get him (get him)
Yeah, get him (get him)
Get him (get him) get him
(Get him) get him alone

Get him in a party
Get him in a car now
Get him with the lights down low
Get him with your perfume
Get him with your lipstick
And get him with the ya ya yo

If his sweet talk is thrilling
And you think you're willing
Oh, baby, you better stay home

He'll come pounding at your door
He'll be begging, begging for more

If you get him (get him)
Get him (get him) get him now
(Get him) get him (get him)
Yeah, get him (get him)
Get him (get him) get him
(Get him) get him alone

Oh, get him with your lipstick

(Get him) get him
(Get him) get him now
(Get him) get him (get him)
Yeah, get him (get him)
Get him (get him) get him
(Get him) get him alone

Oh, get him with the ya ya
(Get him)
Get him (get him) get him now
(Get him) get him (get him)
Yeah, get him (get him)
Get him (get him) get him
(Get him) get him alone
