### "Moonless Night"

Walking at the desert paths  
Feeling uncertain for tomorrow  
My unexpected fears  
Are looking for my mind  
Watching my life day by day  
Lost in empty pictures  
Trying to escape from monotony  
Misery unable to cry out for help  
Reflections  
Are leading me to a heaven  
I already lost  
Empty horizons are my visions  
And this is where I can only be  
Far beyond the sky  
I lay down my wings  
Till the clouds  
Will uncover the sun  
When the moonless night  
Will come again feeling uncertain  
Walking in a desert path of my pain  
The moonless night will come again  
Walking in the desert path of my pain
