[musick & lyrixxx - Ross Sewage, 1998]

Observing the forensic dissection, Espying the splayed
chest cavity, His
abberant sexual stimuli, The grotesquely displayed
anatomy... Organs
displaced with steel forceps, By the morbid anatomy
technician, Ensanguined
guts arouse the mixoscopic, His voyeuristic experience
facilitated by
masturbation... Evacuation of the omentum proceeds,
As connective tissue is
ripped, This intense vicarious carnal diversion, Peaks
as embalming fluid
drips... Fomented by images so gory and sick... With
the coroner's autopsy
complete, He views the peritoneal chasm, Satiating his
troilistic

perversion, The scoptophilic acheives orgasm... A
testicular ejaculatroy
spasm...
