The band was playing, kinda, something low  
All the lovers swaying, to and fro  
You and me, together, dancing real slow

Tonight's the night, I want you to know  
I can't hold out any longer  
Remember, love can't grow  
Oh, very much stronger

You better hang on to your heart, hold on tight  
Or I'm gonna steal it away, tonight  
I'll take you in my arms and never ever let you go

There's a new moon out, the stars are shining bright  
You're here with me and it feels so right  
So hang on to your heart  
Or I'm gonna steal it away

You're living proof, that dreams come true  
I can't believe, I'm really holding you  
So close, so tight, all night through

If I could only make time stand still, forever  
It'll always be  
Just you and me  
Here, together

You better hang on to your heart, hold on tight  
Or I'm gonna steal it away, tonight  
I'll take you in my arms and never ever let you go

There's a new moon out, the stars are shining bright  
You're here with me and it feels so right  
So hang on to your heart  
Or I'm gonna steal it away

Hang on, hang on  
Hang on to your heart  
Hang on, hang on  
Hang on to your heart

Hang on, hang on

Hang on to your heart  
Hang on, hang on  
Hang on to your heart
