She saw that I have lost my way
I tried to explain myself but hey
Everything was happening so fast
Soon enough we're reliving the past

What's more I'm losing sight of her
Daydreams that takes the spot on black
Guess this is how it goes
till my eyes flow

[Chorus]

Let's sneak out and play the crash the car
And everyone lay down and watch the stars

I just want you

I just want you

These endless feelings I keep having

I just want you

I just want you

No I can't stop needing you

Last night I broke down so confused
Sometimes I start feeling so used
Can't remember anything she said
All I know is I woke up in her bed

I can't stop being around her

I know its gonna hurt

I guess this is over too

And I just can't refuse

Let's sneak out and play the crash the car
And everyone lay down and watch the stars

I just want you

I just want you

These endless feelings I keep having

I just want you

I just want you
No I can't stop needing you

It's all ending
One drink too many
We barely met
She was just a regret

This is all your fault
But I'll take the blame
Lying in the rain
I just want you
I just want you
I just want you
