What's that in the corner?
It's too dark to see.
What's that voice I'm hearing?
Who's that calling me?
Long ago and far away I heard a voice.
One I heard you sing your song I had no choice.
Terror took control and told me what to say.
Letting loose of fear I finally found the way.
After dark -- I see you
After dark -- I feel you
After dark -- I want you
After dark -- I need you
Of age there is no question,
Death's shadow is undone.
We only need each other
And shelter from the sun.
(Chorus)
After dark -- I need you
After dark -- I want you
After dark -- I feel you
After dark -- I see you
There's no turning back now,
My fate is traced in blood.
I've tasted true salvation:
Your power is my drug
(Chorus)
After dark -- I need you
After dark -- I want you
After dark -- I feel you
After dark -- I see you
After dark -- I touch you
After dark -- I . . .
After dark, after dark, After dark
