"Dead Hearts"

Visit "[Dead Hearts](#)" on MotoLyrics.com

Even after all the time I've wasted on my so called
friends
Even after all the books ive read but never seen the
ends
How can anybody really know what's happening in my
head?
When all i see is rows of laughing faces as im left for
dead

Yes i'll find a way
So that you and i can see another day
We've wasted time
We've wasted days
And it's wasted

All 4 1 + 1 4 all = n0thing anymore
Take your time and analyze the broken pieces on the
floor
You can't tell me what i want, a brain? a mind? a life to
lead?
You can't tell me what i want, you can't make my dead
heart bleed

Yes i'll find a way
So that you and i can see another day
We've wasted time
We've wasted days
And it's wasted

Why'd you leave the fight when the best mans winning?
How did you feel alright when the good guys lose?
You're having a good night, and the bands still
singing...

Yes i'll find a way
So that you and i can see another day
We've wasted time
We've wasted days
And it's wasted
