Im taking a break from coming of age
I don't wanna know who wrote the first page
Sick all alone and I never got paid
Sell it to the martyrs who never got slayed
Jump the line, beat the rush, now im asking myself just

What is this an issue for?
(every seven days)
You keep asking me for more
(then piss it all away)
Come on, tell me it's the end
(every seven days)
And maybe we can start againâ€¦

Who said walking on glass was hard

Who keeps shaking their ass too hard
There was a problem with fuelling your needs
There was a problem, im falling asleep
Jump the line, beat the rush, now im asking myself just

What is this an issue for?

Monday hits me pretty bad
Every seven days im sad
Some say you make your own luck, im getting by,
By getting fucked
Jumped the line, beat the rush and now im asking
myself justâ€¦
