In level one it's easy to compete
Now 2,3,4 with eyes closed
You landed on your feet
When it's finished you can't do it back
Maybe if you've got Â£17,000 - ha.
So don't say you hate it
Its not complicated, you can achieve
What you wanted today
A bad alibi?
How hard did you try?
How hard did it seem.

So you need to make a choice the options: 1.
2 through 4 aren't viable until the 1st ones done
You find the opposition far too much?

Maybe it's because you're out of touch.

So don't say you hate it
Its not complicated, you can achieve
What you wanted today
A bad alibi?
How hard did you try?
How hard did it seem.

Running from yourself.
Running from your friends.
Heres a race you just wont see the end

Run. run.
You think i give a dam about the fact you never had a
decent run?
And you'll never see the sky?
