One foot closer
Every step faster
Catastrophe avoided
But we're in the same place
Reaching surface
Eyes to the world
Watch when we fall
Don't look away, see it all

I sit embrace
By this disgrace
You move elegance, silence, my regrets

Lets be cliché
Nothings changed
I'm just the same as before
I've looked no further

Lets be clichés
All sound the same
I'm just the same as before
I've looked no further

We've been building
Relentless unforgiving
Destroying and making
While they were suffering
They scream and they cry
We've only time to say goodbye
It was over before we left
Forgive, Forget, Don't pretend

I sit embrace
By this disgrace
You move elegance, silence, my regrets

Lets be cliché
Nothings changed
I'm just the same as before
I've looked no further

Lets be clichés

All sound the same
I'm just the same as before
I've looked no further

Lets be cliché
We loved change
I bet you won't change anything more
They need your charity
Messed around enough to know which direction to go
You are just as responsible
Don't turn your eyes to the world
You'll need to see this for yourself
Need to save them from this

Lets be cliché
Nothings changed
I'm just the same as before
I've looked no further

Lets be cliché
Nothings changed
I'm just the same as before
I've looked no further
