Track #13 was digitally mastered using the SPL Vitalizer, and Sony DAL-1000 in conjunction with the Sony PCM 1630. All efforts were made to exceed typical limitation of 16 bit linear digital technology compression, limiting, and equalization curves have been created to deliver maximum gain structure. The PCM 1630 master tape for this recording was printed with continuous overlevel indication (OL) at the request of the artist/Producer, this CD is not in accordance with Sony-Phillips Red Book Specification, nor is this practice advisable in the process of CD manufacturing. Please exercise extreme caution when utilizing this Compact Disc on consumer grade high fidelity playback equipment. Relapse Records, their affiliates and/or associated manufacturing facility will hold no responsibility for power supply component, recording, processing, loudspeaker or other, transducer malfunction failure and/or destruction of referenced audio playback system.

"NO COMPROMISE IN DEFENCE OF MOTHER EARTH"

"I think we're morally justified to resort to whatever means are necessary in

order to defend our land from destruction..." - Edward Abbey.
