Theatre Of terror  
A gallery of true evil  
A kingdom built  
On the people I killed

A snapshot of your reality  
Mirror yourself in my blade  
With bloodstains I paint the walls  
I want this night to last for years

A frightening scenario  
A playground of fear  
And it's me in the center  
The tyrant god!!

A snapshot of your reality  
Mirror yourself in my blade  
With bloodstains I paint the walls  
I want this night to last for years

I want to feel the other side  
Through your pain  
Through your misery  
The power of insanity

A gallery of true evil  
A frightening scenario  
A theatre of fear  
Obscure fucking terror!!
