The trickster has shown his flag  
He is the challenger  
Death's winged commander?  
A master of disguise

You see witches in my eyes  
Dancing high above what is sane  
Killing them would be like  
Killing myself

Welcome to the land of the wicked  
We are living in the shadows  
Where darkness bear the crown  
We have chosen the chaos path

Shadowlands

Multidepressive visions  
Insanity is raging your thoughts  
Is it a demon on the inside  
Or "reality" that doesn't understand

Bonfire of the insanities  
We are living on borrowed time  
Navigators in troubled waters  
Better living through  
Chaos
