Ride the storm of mayhem  
Fly with the wings of the damned  
Blackwinged Deathknight  
Your will is supreme

Praise the fall of the world  
I'll show you the way to obscurity  
Images of defunct future  
A mirror of the underworld

Welcome the nuclear mists  
The noble art of self-destruction  
Art in divine form  
Crawl the fields of death

Dance to the beatings of clubs  
Show your victims the way  
The smile of a predator  
Let them join the cadaver march

Ride the storm of mayhem  
Fly with the wings of the damned  
Blackwinged Deathknight  
Your will is supreme

Praise the fall of the world  
I'll show you the way to obscurity  
Images of defunct future  
A mirror of the underworld

Welcome the nuclear mists  
The noble art of self-destruction  
Art in divine form  
All that is set for you is...  
Death!!
