The swirling vortex of the underworld  
A kingdom of pestilence  
The violent tyrants  
Against themselves (suicides..)

You're standing at the pedistal of shame  
An absurd existence  
Grred and Phosphate  
The sinister insect bites back

Chief Nihilist  
Leading the syndicate of death  
Mass destruction business  
Architecture of a suicide nation

Spread your darkened wings

You're standing at the pedistal of shame  
An absurd existence  
Grred and Phosphate  
The sinister insect bites back

The Stench, The Filth

Chief Nihilist  
Leading the syndicate of death  
Mass destruction business  
Architecture of a suicide nation

The swirling vortex of the underworld  
The pestilence empire
