

Exodus "Democide"

Visit "[Democide](#)" on MotoLyrics.com

Monsters, proudly displaying their deeds for the world
to proscribe

Demons, walking the earth hell bent on their genocide

Complete destruction, blood lust seduction

Drinking warm blood with a smile

Beyond the horror, they're born to suffer

Hundreds of thousands defiled

Show no mercy, slow executions

Laugh while mutilating

God be damned, war is hell

God be damned

Dissected while still alive, the violence you live to
endure

Cleansing, inherently violent, purging the world for the
pure

Triumph of evil, hatred primeval

Unenlightened corrupted souls

Orgy of murder, heartless and vile

Merchants of death in control

Show no mercy, slow executions

Laugh while mutilating

God be damned, war is hell

God be damned, war is hell

God be damned, war is hell

Monsters, proudly displaying their deeds for the world
to proscribe

Demons, walking the earth hell bent on their genocide

Show no mercy, slow executions

Laugh while mutilating

God be damned, war is hell
