

## **Exodus**

### **"Give Love Away"**

Visit "[Give Love Away](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Hear the sound of a generation  
Living out the love we sing  
We have found the greatest  
Joy in giving  
To be Your hands to be Your feet  
To give our love away

I can't deny I won't deny  
What You have said  
What You have done for us  
I will do for You

We are the revolution  
Holding the one solution  
This is the call  
To give our love away

Hear the sound of a generation  
Living out the love we sing  
We have found the greatest  
Joy in giving  
To be Your hands to be Your feet  
To give our love away

I can't deny I won't deny  
What You have said  
What You have done for us  
I will do for You

We are the revolution  
Holding the one solution  
This is the call  
To give our love away  
We will go where You lead us  
Shining the light of Jesus  
Leaving it all  
To give our love away

No greater love than this  
That He should give his life  
That He should give his life for us  
No greater call than this

Than to give our love away  
Give our love away

We got to give we got to give  
We got to live  
To give our love away  
To give our love away

We got to give we got to give  
We got to live  
To give our love away  
To give our love away

We are the revolution  
Holding the one solution  
This is the call  
To give our love away  
We will go where You lead us  
Shining the light of Jesus  
Leaving it all  
To give our love away

We are the revolution  
Holding the one solution  
This is the call  
To give our love away  
We will go where You lead us  
Shining the light of Jesus  
Leaving it all  
To give our love away  
To give our love away  
To give Your love away
