Let's start a fire, biggest one you've ever seen  
You bring the matches, I'll Bring the gasoline  
Ignite it, delight it, the flames grow higher  
Burn the world upon a funeral pyre

(Chorus)

Raze!

Light this motherfucker like a roman candle

Burn this bitch straight to the ground

Raze!

Let's not worry about consequences

If it's standing, we'll bring it down

Destroy it all, show no inhibition

Revel and rejoice in unbridled demolition

Smash it, fuck it, nothing will remain

Destroy it and wreck it but never take the blame

(Repeat chorus)

We Have Ignition

(Solo: Gary)

(Solo: Lee)

Shake the earth from its very foundation

Lay waste to the world without hesitation

Break it, take it, you don't have any reason

Fuck it, destruct it, its demolition season.
