Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another factory closes down
Protesting voices have been drowned
Just another town that dies
Work force workers go home and cry
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another family leaves the town
Try their luck southward bound
Its only hope that spurs them on
Lost horizons dream on
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Nights of boredom trigger despair
Anarch breaks out in the workless homes
Ousted sons and daughters roam
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another day to go nowhere
Another corpse hangs from a tree
Is suicide left for you and me
Reared up in a workless zone
Teachers in the damned to free their own
