"Blown Out Of The Sky"

Tell us the truth
We got a right to know
Forty minutes into the air
Then came the final blow
Blown out of the sky
Blown out of the sky
270 victims of flight 103
A year has passed already
And they still withhold the facts from me
Blown out of the sky
Blown out of the sky
They knew two weeks before
That atrocity was planned
But all the people at the embassy did
Was charge their own flight plans
Blown out of the sky
Blown out of the sky
31000 feet relaxing with a drink
How were they meant to know
That death was nearly theirs
A bomb was planned in the cargo hold
Put on by a person unknown
But the government will not admit
That they knew two months before
