"Eyes Of The Vulture"

Death as seen through a vultures eyes
Four hundred feet above a sunlit sky
Dosen't have to kill to stay alive
Man the animal is it's provider
See the darkened lebanise skies
See the darkened
See the darkened
See the darkened lebanise skies
See the darkened lebanise skies
Vultures picks on those who died
Bloated bodies stench the air
While Israel soldiers stand and stare
See the darkened lebanise skies
See the darkened
See the darkened
See the darkened lebanise skies
Man the animal is it's provider
And it dosent give a damn why man kill man
And it never seeks no answers as long as there corpses
All supplied by political gansters
See the darkened lebanise skies
See the darkened
See the darkened
See the darkened lebanise skies
