"If You're Sad"

Visit "[If You're Sad](#)" on MotoLyrics.com

Paranoia consumes my mind
Hearing footsteps from behind
Mr depression was his name
One more suicidal nut case fantasy
If you're sad hell take your brain
All he wants is to destroy you
You don't really understand me
Watch out terrorizing me
Feeling depressed now everyday
For the last three weeks of my life
Listen to the same bullshit everyday
Slowly torturing me driving me insane
If you're sad hell take your brain
All he wants is to destroy you
You don't really understand me
Watch out terrorizing me
Its a wonderfull world they tell you
Arsehole try some reality
Tears of depression that cover your face
You come across a lonelyman who looks in pain
