### "Lying Journalists"

Visit "[Lying Journalists](#)" on MotoLyrics.com

Sat in front of your tv  
After to have nothing done of your day  
They tell you the life  
They say to you what is not

Lying Journalists  
Journalists of shit

Think like this, look at that  
Does not believe this, believe that  
You don't know anything, they say to you  
Don't await anything from them

Lying Journalists  
Journalists of shit

They don't know more than you  
But they won't say it  
You trust them  
They lie to you more and more
