My loves' old fashioned
But it still works
Just the way it is

This love is classic
And not just simply because
I say it is
It's right on time (right on time)
And it's timeless (timeless)
And it'll be right here, for always

My loves' old fashioned
So be it, I'm set in my ways
Hush child, just listen
Don't it sound just like the good old days

Well it's right on time (right on time)
And it's timeless (timeless)
And it'll be right here, for always (always)
My love's right one time (right on time)
And it's timeless (timeless)
I'll be right here for always

Oooo... people they gather round, and they wonder how
Are we in love right here and now
I just smile cause true love doesn't go out of style
Ooh... right on time, Ooh, yes,
Ooh... on time, ooh timeless
I'll be here, for always
