"Pulling You Down"

Visit "[Pulling You Down](#)" on MotoLyrics.com

10 times the man
But no time to prove
That in a grasping society
You can be of use
They're pulling you down
No-one to talk to
No-one seems to care
There's an easy way out
But you just don't know
If you dare
They're pulling you down
The bedsits expensive
The moneys not enough
Leisure times available
But even leisure cost
They're pulling you down
The job you had is gone now
The man next door the same
All pathetic victims
Of the government high
Power games
They're pulling you down
So listen to the crisis
The schemes that just don't work
To keep the people blind folded
They keep the workless down
They're pulling you down
