"Robot Sex"

Visit "[Robot Sex](#)" on MotoLyrics.com

Maybe I'll cost the... before you break my heart in two
You can insert me anytime I would do what I have to do
girl

I can show you a spaceman, we can be like the moon
such a mystery
I can travel the text time for you, and me

But she don't want robot sex, she wants that human
touch
She don't want robot sex, she wants that human touch,
human touch

So maybe I'll take the center stage, and cry tears like a
tin man do
Cause you couldn't see me anyway, it's all... that falls to
you girl
I can show you a spaceman, we can be like the moon
such a mystery
I can travel the text time for you, and me

But she don't want robot sex, she wants that human
touch
She don't want robot sex, she wants that human touch,
human touch

But she don't want robot sex, she wants that human
touch
She don't want robot sex, she wants that human touch,
human touch
She don't want robot sex, she wants that human touch
She don't want robot sex

And there you have it, ladies and gentlemen, my name
is lady killer cee-lo green
Ah yes, and introducing the... jack splash,... the future
of the funk is right here, right now
I repeat, the future of the funk is right here, right now
