They said they would prevent a war  
To stop the sufferings for ever more  
No wars to fight no blood to shed  
But they were lying we'll soon be dead  
And now you're as good as dead  
And now you're as good as dead  
The button is pushed it's all begun  
Those alive there soon be none  
In the distance a yellow sun  
And still we pray for death to come  
And now you're as good as dead  
And now you're as good as dead  
The troops are out there on patrol  
Passing burnt lumps as they go  
My clothes are in shreds i can barely see  
Whilst all around is dead and disease  
And now you're as good as dead  
And now you're as good as dead  
I picture maggie in my mind  
Safe below she's feeling fine  
She has no burns no torn off limbs  
She sits on her arse and play silly games  
And now you're as good as dead  
And now you're as good as dead
