6 arrests and nobody cares  
16 years later the people prepare  
The verdict returned set them free  
The dirty pig bastards did the same to me  
Cover up cover up  
Corruption corruption  
The systems fucked up  
Pigs gain promotions they do all the time  
Hand shakes retirement their sentence for the crime  
Their crime should be the same as mine  
They should do the same fucking time  
Cover up cover up  
Corruption corruption  
The systems fucked up  
People locked up all the time  
For a crime they didn't do  
A cover up what is new  
Corruption youve been screwed
