Friday night out with my mates Speeding out of my
head chatting up some birds Then this guy started to
pick a fight So he got a bottle across his face
LAW AND ORDER THERE IS NONE THE SPG ARE HAVING
FUN LAW AND ORDER THERE IS NONE THE SPG ARE
HAVING FUN

The cops appear out of the blue Taken to the cells
handcuffed in twos Friendly faces there are none A
naked cell light replaces the sun The SPG are after you
You'll never outrun the boys in blue They're really brave
when they've got you in a cell If you see them first you
better run My mind and body turning stale Wasting
time in this slimehouse jail Bars on the window locks on
the door Concrete ceiling reinforced doors Friday night
out with my mates Speeding out of my head chatting
up some birds Then this guy started to pick a fight So
he got a bottle across his face
