"Massacre Of Innocents"

No family left all dead and gone
A world of destruction is all you come to know
Its a dying crying poverty show
No reason to change the money men say
Massacre of innocents
People just struggle to stay alive
In the city of chaos someones gonna die
Children of the war zone

Playing in the snow
Massacre of innocents
A single bloody act of terror
Shattered war torn sarajevo tonight
Claimed the life of innocent children
Massacre of innocents
take a look down from above
Corruption destruction
The american way
