Do you live in a tv nation
Cameras focused on street situation
Walk the street they see what you do
Police tv folowing you
Police tv
Watching you
Police tv
Categorising you
Police tv is watching you
Police tv with their video crew
Cameras lie as they focus in

Youll never know cus you can get in
Police tv
Watching you
Police tv
Categorising you
Put up cameras everyday
What next will they take away
Maybe your voice maybe your mind
Tv stations invading your lives
