

Exploited "Rapist"

Visit "[Rapist](#)" on MotoLyrics.com

the rapist is back again in town
got those demons dead
you just don't show that film boy
why not sell the stage

in spite of you not going there
strangled like the rest
like in that new dirty stuff
murderers never had

in spiked nails and rubber gloves
burned them to the ground
he's seen the virgins images
we gotta get the last sound

we haven't seen no woman yet
you ask for me in bed
soldier boy i'll burn the ship
something for your friend
