

Explosions In The Sky

"Come Go With Me"

Visit "[Come Go With Me](#)" on MotoLyrics.com

Feels the same every day,
Come home from work late again,
Work so hard and never play
I can't wait to take you far away

Don't you know? (don't you know?)
Gotta go (gotta go)
Pressure builds from everyone every day
Get away (get away)
Come my way (come my way)
When the day begins to end, then you're mine

Come go with me, make you feel alive
This night will last everlasting through the time
Come go with me, have no fears

Bring back the memories
I can take away the misery
Take my hand, we'll fly away
To our world that we can find today

Can you feel? (can you feel?)
I'm for real (I'm for real)
Can I hold you by the fire in the night?
Is it right? (is it right?)
Hold me tight (hold me tight)
When you look into my eyes in the light

Come go with me, make you feel alive
This night will last everlasting through the time
Come go with me, have no fears
Two hearts in one eternal through the night

Don't worry 'bout tomorrow
Just come go with me
Don't let it end in sorrow
Love is our destiny

GUITAR SOLO

(Come go with me, come go with me)

I'll take you by the hand
And we'll find another land
(Come go with me, come go with me)
Oh, leave the world behind,
The world from nine to five
(Come go with me, come go with me)

Come go with me, make you feel alive
This night will last everlasting through the time
Come go with me, have no fears
Two hearts in one eternal through the night
(repeat and fade out)
