More than ever, you've been on my mind
Being lonely ought to be a crime
Watching TV just to pass the time
When all I think about is you
And if you're thinking of me too,
I know you know what to do

Oh, I
I wish the phone would ring
I'd do anything
Just to hear your voice
Oh, baby, why?
Why do we have to fight?
Can't we both be right?
Wake me from this dream
I wish the phone would ring
Ring

What we're doing (ooh) doesn't feel so right (ooh)
And you should be here in my arms tonight
Here in my heart (here in my heart), I live all the lies
Locked up inside these lonely walls
I can't go anywhere at all
So afraid I'll miss your call

Oh, I
I wish the phone would ring
I'd do anything
Just to hear your voice
Oh, baby, why?
Why do we have to fight?
Can't we both be right?
Wake me from this dream
I wish the phone would ring
Ring

INSTRUMENTAL BRIDGE

And all I think about is you
And if you're thinking of me too,
I know you know what to do

Oh, I
I wish the phone would ring
I'd do anything
Just to hear your voice
Oh, baby, why?
Why do we have to fight?
Can't we both be right?
Wake me from this dream

Oh
I wish the phone would ring
I'd do anything
Just to hear your voice
Oh, baby, why?
Why do we have to fight?
Can't we both be right?
Wake me from this dream
I wish the phone would ring
Ring
I wish the phone would ring
Ring
