Ooh yeah  
You know love don't hurt until you fall in love  
Ohhhhhhh, yeah-eah-eah-eah-eah  
Yeah!  
Ooh yeah

From the first time that I met you,  
I went head over heels  
And it maybe could have been true  
I didn't know how to feel  
I caught your eye,  
Or was it that you caught mine?  
I was just about to die  
When your hand held mine

Love always finds a way  
I fell right in your game  
I know it's true,  
I'm just another heart to you  
Just one more story  
That you hear about so much  
The thoughts go on living  
In the back of your mind

CHORUS:  
Love don't hurt until you fall in love  
Love don't hurt until you fall  
Love don't hurt until you fall in love  
Love don't hurt until you fall

You looked into my eyes  
When you said our love was real  
I shoulda known  
That you were cold and couldn't feel (couldn't feel)  
Infatuation is the name (name)  
I shoulda known it was a game (game)  
You lead me to believe  
You would never leave

Love always finds a way  
I fell right in your game

I know it's true  
I'm just another heart to you  
Just one more story  
That you hear about so much  
The thoughts go on living  
In the back of your mind

#### CHORUS

What's it all about,  
This thing called love?  
What am I supposed to do?  
I can't get enough of you  
Love don't hurt  
'Til you find a love that's true  
Farewell to you, my love  
You're never gonna make me blue

I was such a fool (ooh-ooh)  
Don't you believe it too? (ooh-ooh)  
I wanted you  
One and one, it don't make two  
This don't make no sense (no sense)  
Walk around feeling tense (oh no)  
I wish it would rain  
To wash away the pain

#### CHORUS

#### INSTRUMENTAL BRIDGE

Thoughts keep on living  
In the back of your mind

#### CHORUS (2x)
