Can I have it?
No.
I was ready to stab it so
but she was one of those bad habit hoes
if I didn't get no pie I just might manage to bust
man i wanna slam ya but i won't damage your crust
so what's the price for a slice
she told me twice it wasn't nice to entice
but i'm feeling alright tonight
I'll settle for a sliver
Frontin' freak won't mettle your liver
fun is cheap I bet I'll give you one
deep memory
so while your waiting up on your husband
be a friend of thee
I'll take time with your spine so be content with
these hold you quick
got my spoon ready mold your clit
that passion run wild while I hold your shit
16 teeth did not know I would be dicking thee
ho that said no because i'm strict with thee
Persistent ways and It pays,
I'm waxin these hoes for the rest of my days
[CHORUS:]
"Gimme some sweet potato pie
I want some sweet potato pie girl"
I flirt with a skirt and get aggressive like Gerald Levert
it never hurts all the while i'm thinkin dessert
sweet potato, and we can fade a fifth
if you lift your skirt, I'll hit and see ya later
and show you a whole new meaning of train of thought,
Mike G benefits off
what Dwayne has caught
come on I'll use you twice wont bruise your slice
Be prepared to screw and I'm gonna do your crew
I wont bring you flowers
but you can give me two lips (tulips)
And few dips didn't like the way I do hips
So hold it steady
I'm ready to meet youth with a sweet tooth
and when you come over I wanna see you in something

see-through
Hold up, wait a minute
let me put my spoon in
serving your cervix until there's no helpings left
yellin theft won't do you no good
won't help because you volunteered
So when I see you come near
[CHORUS]
I remeber this broad named Jane
it was plain that she awas insane for Duane
I boned this freak so many times
that it wasn't funny
nutritious cereals can show the way I'm nuttin honey
so I had her sellin pie with a hella-fied servings
had young niggas sprung
and ain't no telling why
dough she made for me
8 more hoes who knows
I can start a ho bakery
knockin streets outa buisness cause the recipe
I guess was just the best with ecstasy
and that's the beauty and the beast
it took a little while but I finally got my piece
